## Education

*Information on education in New York State — including enrollment; school finance; degrees granted; tuition assistance; libraries; cultural organizations; and public broadcasting.*

### Highlights

- 3.2 million students were enrolled in public and nonpublic elementary and secondary schools in Fall 2005, nearly one-quarter below the peak enrollment of 4.3 million in 1970.
- Brooklyn (Kings County) had the highest 2005 public school enrollment in New York, and also accounted for over 22 percent of students in nonpublic schools in the State.
- New York's public elementary and secondary schools had 270,773 classroom teachers serving 2.8 million students in 2005 compared to 188,817 teachers serving 3.5 million students in 1970.
- New York's public elementary and secondary schools spent 43.2 billion in 2005, financed by property taxes and other local moneys (50.4%), State aid (43%), and Federal aid (6.2%).
- There were 809 thousand full-time and 344 thousand part-time students in degree-credit enrollments in New York's higher education institutions in 2006.
- Nearly 321 thousand students received State Tuition Assistance Program (TAP) aid in the 2006-07 year, down 2.86 percent from 2005-06.
- The 6,952 libraries in New York had over 212 million volumes and nearly 12,000 professional staff in 2005. Colleges and universities accounted for under 4 percent of the libraries but over 36 percent of the volumes.

1 The local units charged with the administration of schools in New York State may be placed in three categories:

- a The “common school district” dates from 1812 and is limited to providing education through the eighth grade. The district was originally set up in 1812 to render “common schooling” or the three Rs. The district was and for the most part has continued to be small in area. Some common districts have consolidated but continue to function as common school districts. The district is governed by a sole trustee or a board of three trustees.
- b City school districts are subdivided into two fiscal categories. School districts of cities of population under 125,000 are fiscally independent. School districts of the “Big Five” cities (population over 125,000) are fiscally dependent and have boundaries that are coterminous with the city.
- c The “union free district,” unlike the common district, may provide high school services when granted a charter by the Board of Regents, although some union free districts provide elementary school services only and in that regard function quite like common districts. Central school districts and central high school districts, while organized under special provisions of the law, function thereafter as union free districts and may, therefore, properly be put

in the category of union free districts. When a union free or central district employs its own superintendent of schools, it is called an independent village superintendency district. Its operation, however, is not changed materially.

- 2 Districts are counted annually in September.
- 3 Includes “Big Five” cities (New York, Buffalo, Rochester, Syracuse, and Yonkers), other smaller independent city districts, and city central districts.
- 4 Includes village central school districts.
- 5 The supervisory district serves in an intermediate position; that is, between the State and the local district. The geographical extent of the supervisory district is determined by a grouping of towns. The administrative officer of the supervisory district is the district superintendent whose qualifications by law must be the same as those of the city and village superintendents. The district superintendent serves as both a local officer and a State officer.
- 6 BOCES (Boards of Cooperative Educational Services) are service organizations created by law to do for a district that which it cannot do by or for itself because of size, financial burden, etc. BOCES are not included in the “Total Districts” column because they function as providers of services to regional groups of school districts.
